Aviation-Event 2022 CLJ
31 March 2022

 Cluj International Airport | Romania

THE HOST OF THE EVENT

Ph.D. Eng. David Ciceo
CEO, Cluj International Airport

Aviation-Event reveals to the world the true Gateway to Transylvania!

Cluj International Airport, the most important gateway to the north-western region of Romania, welcomes Aviation-Event for the first time in Romania.

As a first-class mid-size airport located in a full economic development region, with a special appetite for business & leisure traffic, Cluj International Airport has demonstrated the ability to take advantage of the potential of its catchment area and became, over the last decade, Romania's Airport with the most spectacular increase in passenger traffic.

If in 1996 the airport's development plans at a traffic level of 36,000 passengers seemed impossible to achieve for some, its dynamic management approach towards modernizing and developing the airport infrastructure over the last 25 years, led to reaching a historical threshold of 2.9 million passengers in 2019, and granted Cluj International Airport the worthy statute - model of good practices and landmark airport in South-Eastern Europe.

Aviation-Event 2022 CLJ will be held in one of the most vibrant European cities, with a multicultural environment, also named the 'Heart of Transylvania' not just because of its geographical position, but also for its role in the historical and economic development of the region. The city is one of the most important academic, cultural, industrial, and business centres in Romania, the second after the capital Bucharest.

The Aviation-Event 2022 CLJ agenda will include topics of interest regarding aviation in Central, Eastern and South-Eastern Europe, with focus on regional airports from this side of Europe. Top international aviation and air transport specialists will share best practices, roles, and strategies for mid-size regional airports, their regions and the continuing need to adapt to the new scenarios of the ever-changing aviation industry.
